

KIDS FOR KIDZ FOOD DRIVE

While the way you decide to conduct your food drive and/or fund drive is completely up to you, most coordinators follow these basic steps:

***Designate A Coordinator**

Choose who within your organization will be the coordinator for your event to be responsible for organizing, promoting and communicating to employees, members and/or the community.

***Selecting Dates**

First, decide on dates for your food drive. Food drives can run as little as two hours or for up to two months. Some donors even collect food and money year round. The average drive is usually about 2 to 3 weeks.

***Choosing Your Locations**

Select high-traffic areas where the donation containers will be noticeable and convenient for donors to access. Be sure to consider safety and security issues when choosing your locations. If you have multiple locations, you may want to recruit someone at each of those sites to help you manage donations at each building.

***Register with GCFB**

Complete the enclosed participation form for your event.

***Setting A Goal**

This helps you to energize your participants, and it can add an element of friendly competition between organizations or teams. You may also wish to select a theme for your event to add a fun detail.

***Promote Your Drive**

Inform participants and the community about your event through letters, announcements, flyers, web sites, email. The more people that know about your efforts, the more donations you will receive! We can provide the GCFB logo for your marketing materials, upon request. Share your marketing materials with us and we will promote your event on our social media accounts as well.
